

About

Principal Staff

John C. Lewis, P.E., C.L.A. is a Professional Engineer and Landscape Architect licensed in Virginia, Pennsylvania, West Virginia, North Carolina, and Maryland with thirty years of experience in the areas of infrastructure design, land reclamation, landscape design, hydrology and hydraulics, land planning, utility design, and site development design. Mr. Lewis experience includes five years with the North American Coal Corporation where he was responsible for large reclamation projects under the Surface Mining Control and Reclamation Act and the National Pollution Discharge Elimination System. Mr. Lewis is familiar with regional Best Management Practices, the design of constructed wetlands for water treatment, wetlands delineation, commercial development planning and design, residential development planning and design, and indigenous plant species and their relation to the enhancement of the local environment. Mr. Lewis has considerable experience as the person in responsible charge for the design, permittine, and management of public and private construction and development projects.

Timothy G. Painter, P.E., a member of PAINTER-LEWIS, P.L.C., is a licensed Professional Engineer licensed in Virginia, West Virginia, New York, and North Carolina with thirty years of experience in commercial and residential site design and development, utility design, construction oversight, and structural design. Mr. Painter has been responsible for the structural design of footings, foundations, and structural framing elements for a variety of new structures and the stabilization of various existing structures in the area with extensive experience with the structural rehabilitation and preservation of historic structures. Mr. Painter has considerable experience as the person in responsible charge for the design, permitting, and management of public and private civil engineering projects.

Elliott Ritchie, L.S., a member of PAINTER-LEWIS, P.L.C., is a Licensed Surveyor practicing in the area since 1974. Through his work, Mr. Ritchie has gained a wealth of experience in boundary surveying, parcel layouts and subdivisions, construction stakeout, and the preparation of legal documents in support of land transfers. Mr. Ritchie specializes in deed research, Global Positioning Surveys (GPS), topographical surveys, all phases of construction surveying, the preparation of condominium plats, and ALTA/ASCM surveys.
